

Let's talk about... holidays.

Types of holidays

1. Look at the images. Discuss the questions below:

- What types of holidays are shown? What other types of holidays can you think of e.g. a staycation*?
- Have you ever been on any of these types of holidays?
 - If yes, tell us about it/them.
 - If no, would you like to? Why/why not?
- Are holidays necessary? Why/why not?

*a staycation = a holiday at or near your home.

Holiday issues

2. With your group/partner, take turns to roll a dice. When it is your turn, talk about the topic next to the number you rolled for 60 seconds.

Example:  *People can be more environmentally friendly on holiday by...*

Keep playing until your teacher tells you to stop.

-  Environment + holidays
-  Money + holidays
-  Family + holidays
-  Impact of tourism
-  Space tourism
-  Holiday disasters

TIP: If you roll the same number as somebody before, try to think of new ideas they didn't mention.

Dream holiday

3. You now have the chance to design your dream holiday. There is no budget. Answer these questions to help you:

- Where would you go? Why?
- When would you go? Why?
- How would you get there? Why?
- Who would you go with? Why?
- What would you do on this holiday? Why?
- How long would you go for? Why?

Use this space to write down your ideas.

Tell us your dream

4. Present your dream holiday to your partner/group. Ask them questions about their dream holiday. Finally, have a class vote: which dream holiday is the best?
